Dear Readers,

Today you are receiving the 92nd issue of our “Global Trade Newsletter” generated out of our “Egypt4Trade” business intelligence system for the Processed Fruits & Vegetables sector.

In our today’s issue, we would like to focus on:

- **The Pros and Cons of the Citrus Sector in Egypt**
  Citrus is one of the major crops cultivated in Egypt. Citrus is grown all over Egypt with the main production areas located around the Nile River basin. In total there are around 210,000 hectares of citrus grown in Egypt producing approximately 5 million tonnes of citrus annually with approximately 1 million...
